

résumé

Linda Boal

Linda has recently joined us as a Senior Consultant from the Public Sector, having worked on construction projects for a span of over 25 years.

A chartered civil engineer, her experience covers water, highways, leisure and most recently education sectors. She has led a series of successful major projects from feasibility and through the entire cycle of procurement and design, delivery and operation. In addition she has recently worked as a project support director with Partnerships for Schools.

Linda's drive, determination and energy to succeed, allied with her strong and pragmatic leadership and management, delivers successful outcomes on all of her projects.

What Linda would bring to your team

As a highly experienced project manager in the public sector she brings a deep understanding and insight into the Client perspective of projects including planning applications and legal aspects. Having worked at strategic level in local authorities and a Government funding agency she also has a good understanding of political drivers that influence projects and the evaluation of bids.

Her key strengths include:

- Procurement and management of consultants
- Bid evaluation and clarifications
- Planning and stakeholder consultation
- Team coordination and management
- Client objectives and requirements

EXAMPLE ASSIGNMENTS:

- Loughborough sewage treatment works
- Scalford Brook flood alleviation, Melton Mowbray
- Thames tidal flood defences
- Riverside swimming and leisure centre
- Novisad Friendship swing bridge
- Norwich Area Schools PFI, twelve schools reorganised into six
- Open Academy, specialism Environment and Technology
- City Academy, specialism English and Digital Technology
